2018 Design Excellence Awards Winners

As the outgoing chair for the American Society of Interior Designers—Austin design community, I have had the pleasure of meeting, engaging and helping guide our local designers and industry partners throughout my past three years serving on the local board. Through community involvement, continuing education and networking events, our board has strived to advance the interior design profession, while demonstrating and celebrating the power of design to positively change people's lives. I have seen firsthand how important and profound our design profession can be. When people feel empowered, comfortable and secure in their surroundings, anything is possible.

At ASID, we collaborate with others to promote the value of interior design, and we prepare our members to excel in a dynamic and evolving profession. For 33 years, we have celebrated the accomplishments of our talented local design community through our Design Excellence Awards Gala.

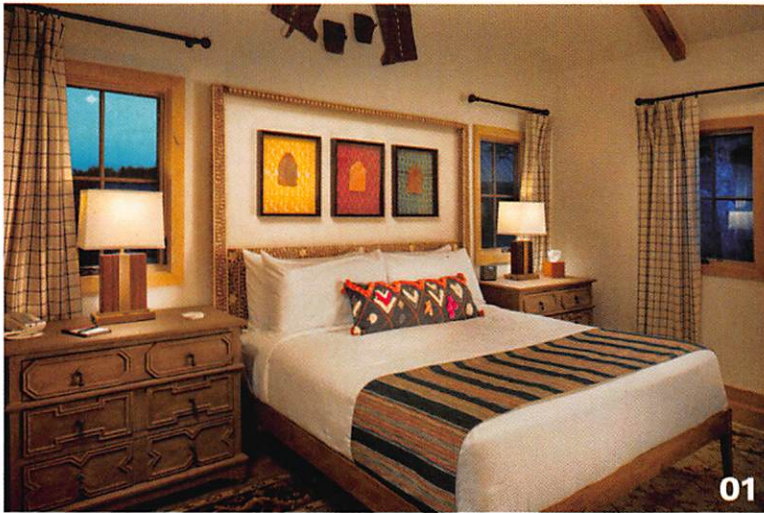

This coveted awards ceremony showcases the highest achievements in interior design, within the Austin design community, through distinguished recognition and appreciation.

This year, we had an all-time record in design submissions, with over 100 project entries. These projects were judged and graded by a hand-selected group of interior designers throughout the country, and we are so impressed with the winning designs. This year, we celebrate our talented designers who showcased their skill, creativity and attention to detail. It is my great honor to present to you the winners of the **2018 Design Excellence Awards!**

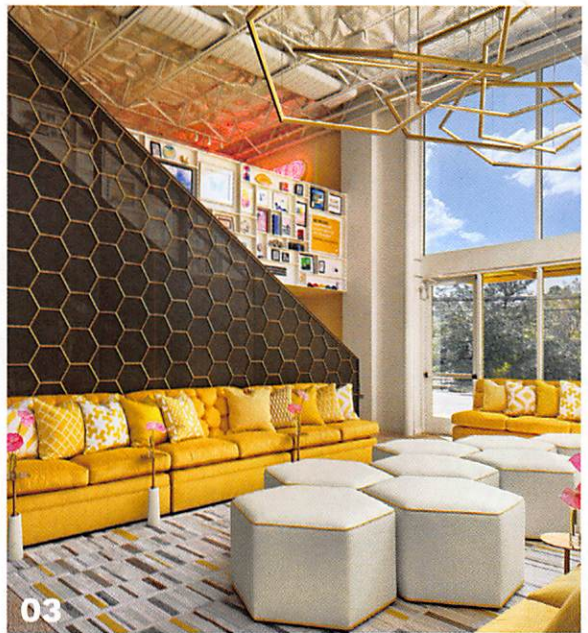

Jessica Nelson
